To Mr. Zsolt Molnár,
Chair of the Parliamentary Committee on National Security

Dear Mr. Chairman,

Thank you for your invitation to attend a sitting of the Committee.

You, the representatives of parties in Parliament, and the Hungarian public must be fully aware that we, who arrived in Hungarian politics from opposition against the communist regime, were the targets of the communist state security apparatus. We were the ones who were harassed and placed under surveillance, we were followed by agents and selected as targets for undercover investigation. In fact we were being monitored in all areas of our lives. I regard as absurd and ridiculous such political attacks and provocations, which seek to falsify the past and which ignore self-evident and documented facts.

This is why I cannot accept your invitation.

Sincerely yours,

Viktor Orbán
