

PRIME MINISTER

Mr. Ronald S. Lauder,

President of the World Jewish Congress

New York, NY

Budapest, 6th December 2018

Dear Mr. President,

As you well know, the government of Hungary pursues a policy of zero tolerance regarding anti-Semitism. The actions and decisions of my government leave no doubt that the Hungarian government feels responsible for its citizens of Jewish origin, and ensures their security. You and your organisation can count on this clear Hungarian government policy in the future as well.

I am surprised however that you are asking me to limit the freedom of speech and the freedom of press. Despite all my respect for you, I cannot fulfil such a request. In fact, even this reply is only justified by our personal acquaintance and the respect I feel for you.

I am also confused by the fact that you seem to grab a pen and paper only when a left-wing public figure of Jewish descent is at the centre of a debate. I have never received a letter from you when a citizen of Jewish descent, cooperative with the government, or right-leaning, got into a similar situation. I am sending you attached two prime examples of such occasions.

It is hard to comprehend the clear left-wing and liberal bias that you continuously demonstrate in Hungarian public affairs. I am uncertain as to whether we should consider your letter a political document, or a stand taken for the Hungarian Jewish community. In case it's the latter, thank you for it. Even if it is unnecessary.

Yours sincerely,

ORBÁN Viktor
